

Which ThunderMax® 50 Fits Your Motorcycle?

THUNDER MAX 50

ThunderMax® 50 provides excellent performance while meeting the tough emissions standards of California Air Resources Board. With its intelligent design, ThunderMax® 50 is continually tuning the engine, adjusting all points of the base map to meet the Air Fuel targets through Wide Band sensor feedback to the ThunderMax® AutoTune module. This proven system provides excellent performance under any riding conditions. **ThunderMax® 50 represents the future in development of Smart Aftermarket Products. This is the one that WORKS!**
